MACUACT

ORODISPERSIBLE FILMS

FOOD SUPPLEMENT WITH SWEETENER

MACUACT is a food supplement with **Lutein and Zeaxanthin** (from Tagetes erecta L. extract), **Blueberry** extract (Vaccinium myrtillus L. and Vaccinium corymbosum L.), **Beetroot** extract (Beta vulgaris L.) and **Saffron** extract (Crocus sativus L.), specifically studied against **Age-related Macular Degeneration (AMD).**

AMD is a disorder associated with free radicals which contribute to the progressive ageing of nerve cells in the retinal tissue as we grow older. There are many factors that contribute to the formation of free radicals capable of oxidizing cells and tissues such as the macular retinal one. **Protecting the macula is essential for preserving eyesight[1].**

Lutein and Zeaxanthin are the only dietary **carotenoids** that **accumulate in the retina**, specifically in the macula, where they perform an **antioxidant action**.
Tagete extract (Tagetes erecta L.) and **Blueberry extract** (Vaccinium myrtillus L. and Vaccinium corymbosum L.) contribute to healthy vision and perform an important antioxidant activity. **Beetroot extract** (Beta vulgaris L.) performs an important antioxidant activity.

Orodispersible films represent an **innovation** in the field of oral administration of substances. They are **ultra-thin** and flexible **strips** that, when placed on the tongue or in the oral cavity, **dissolve in just a few seconds.**

Orodispersible films are **easy to take** across every age group, especially for the **elderly**, non-cooperative subjects, **dysphagic** individuals and **children**.
Package: 30 strips, net weight 6,75 g.
Indications: in case of reduced dietary intake or increased need for the substances present in MACUACT.

Usage:
1.Take the sachet and look for the arrow indicating the opening side;
2.With your thumbs and index fingers, pull both sides of the sachet in opposite directions, until the orodispersible film is fully visible;
3.Take the orodispersible film with dry fingers, open your mouth and place it directly on the tongue until it is completely dissolved.

Recommended dosage:
Take 1 orodispersible film per day to be dissolved in the mouth with no water.

Warnings:
- The product is not intended as a substitute for a varied and balanced diet and healthy lifestyle.
- Do not use in case of hypersensitivity to one or more components.
- Do not exceed the recommended daily doses.
- Keep out the reach of children under 3 years of age.
- The shelf life refers to the product when stored correctly and in its intact packaging.
- Do not use the product after its expiry date.
- Keep the product in a cool and dry place.

MACUACT

ORODISPERSIBLE FILMS

FOOD SUPPLEMENT WITH SWEETENER

30 DAY PACK

FAST DISSOLUTION
Net weight 6,75 g
